Google Translator is a key piece of technology for sharing the content on our website to all those friends and neighbors who do not speak English. This tool allows anyone to select one of many languages and then translate our entire website to that language automatically.

The purpose of this website is to not only inform members with links, information, and news about our church, but also as a witnessing tool for our friends, neighbors and those not members of our church. Please email our church website address to everyone you know so all can know about the soon coming of Jesus.
